Continuation of Substance of Interview including description of the general nature of what was discussed: Need antecedent basis in independent claims for "to remove sulfur", the product claims should be cancelled as the product is shown by the prior art (claims 15 and 16). Claim 23 is confusing in the use of two freezing steps. The specification as newly amended requires 1 to 70 % of cabbabge juice. No basis is seen for this amendment. In claim 26, proper Markush language is "consisting of". Attorney agreed to the corrections made in the Examiner's amendment.
